Vorbemerkungen

Ein mit dem traditionellen Mittel der Verzettelung erstelltes Register kann und will nicht mit dem Informationsangebot einer Datenbank konkurrieren. Es kann weder fügenlos komplett noch kompromißlos korrekt sein.

Für die Mühen bei der Aufbereitung der nachstehenden Verzeichnisse danke ich meinen bisherigen Mitarbeitern am Lehrstuhl für Alttestamentliche Wissenschaften an der Universität Bamberg ganz herzlich.

Der Index erscheint als erstes Beiheft zu den Biblischen Notizen und versteht sich auch als besonderer Beitrag zur exegetischen Diskussion. Es möge ihm einiger Nutzen beschieden sein.
